Curling Club Held Annual Smoker

J. S. D'Apollonia Elected President for Ensuing Year. Presentation of Prizes

The annual meeting and smoker of the club was held in the K. of P. hall last Friday evening, some 25 members being in attendance. W. Lees presided and H. C. McBurney acted as secretary in the absence of W. L. Rippon.

The annual report showed a balance on hand of \$30, providing all outstanding fees are paid, which the secretary intimated would undoubtedly be the case.

Officers appointed are J. S. D'Apollonia, president; J. Houghton, vice-president; W. L. Rippon, sec.-treas. Committee—J. H. Boulton, J. Bell, T. Jackson, G. Dickson, R. Jenkins.

Presentation of Prizes

The McGillivray Cup was presented to Allan's rink, composed of J. Allan, T. Holstead, S. Houghton, J. Parkes. Medals donated by McGillivray Creek Coal & Coke Co. were the first prize in this event.

McBurney's rink took second prize in this event.

The Morrison Cup was won by McBurney's rink, consisting of H. C. McBurney, W. Lees, F. Antrobus, A. Bordula.

Second prize in this event went to Moore's rink, consisting of S. Moores, W. Johnston, S. Houghton, T. Blower.

The Merchants Cup series, in which the regular third man acted as skip, was won by Ledieu's rink, with J. Yates, skip; E. Ledieu, E. V. Peet, H. Sheritt.

The second prize was won by J. Bell's rink with T. Jackson, skip; J. Bell, R. Penman, Herb Snowdon.

Following the presentation of cups a social time was enjoyed and several of the members gave vocal selections.

A motion was passed that a letter of appreciation be sent to the McGillivray Co. for donating the handsome prizes which have been donated annually since this cup was first put up for competition.

The offer of H. C. McBurney to provide a yearly button in connection with the points cup was accepted and the vice president, J. Houghton, was nominated to take charge of this event and that ice is provided. Players would derive great benefit from playing points as often as possible.

Two copies of the Caledonian Curling Rules were ordered to be purchased by the club.

Hot and Cold

General chorus—"Yee! we'll want a high school, oh yee!"

But when the location decided as the most suitable was named, the enthusiasm of the friendly towns dropped almost to zero. Now is the time for Coleman school board to further improve its educational facilities and thereby maintain its lead as a school centre.

Mr. Andrew Halkett, general superintendent of the C.P.R. for Alberta, has intimated his willingness to come and discuss transportation arrangements with those interested, so the next move will be up to the school trustees.

Tennis Club Preparing for Tournament

Courts Being Splendidly Improved in Anticipation of Crows Nest Pass Annual Meet in July

The tennis club appears to be the most enthusiastic and popular organization in town as far as summer sport is concerned. Improve measures in the way of new fences, a stone wall at the north end of the lower courts and general work will entail an expenditure this season of over \$500.

In July clubs from Cranbrook to Pincher will participate in the annual tournament, which will bring a large number of players to town, and Coleman club is preparing to make their stay here as enjoyable as possible.

Miners' Ballot Gave Dr. Borden Majority

Pit-head Closed Ballot Taken Yesterday at International and McGillivray Mines

The official count given out last evening showed

Dr. R. P. Borden	352
Dr. J. R. Rehill	238
Spill Ballots	6
Majority	114
Total voted	596

There were 63 applications for the position of miners' doctor, and of these the two above were selected to be balloted on.

Dr. Rehill practices at Oxbow, a town on the Brandon Estevan branch of the C.P.R. in southern Saskatchewan, and he spent last Friday here interviewing the hospital board.

Mr. and Mrs. Steve Kleyko spent Easter at Michel.

Quoiting Enthusiasts Urged to Organize

Coleman in Past Years Was Noted for Championship Team. J. Bell Individual Champ.

Coleman has been noted in years past for its prowess in quoiting, and a few years ago produced a provincial championship team.

Due to labor conditions, interest has slackened during the past two years, but there have been individual quotters sufficiently interested to follow the provincial competitions and compete in the events.

The provincial association is in its infancy. Yet there are five clubs affiliated to the Calgary Association, and other clubs anticipating affiliation are Banff, Canmore, Tabar, etc. Edmonton quotters are also affiliated.

Last year the individual championship, open to Western Canada, was played under the joint auspices of the Alberta Quoiting Association and the C.P.R. Banff Highland Games. This competition carries with it the title of Western Canada champion, and the trophy is a handsome silver quoit to be held by the winner for one year. In addition to the quoit, the C.P.R. donated four handsome prizes—one to the winner and three to the runners up. Last year the first of the competitions was run under these conditions, and the present Western Canada quoiting champion is John Bell of Coleman.

Information in connection with the association can be had by writing to the president, Alex. Rankine, 613 2nd Ave. W., Calgary. Make this a booster year for the quoiting fraternity, and be on hand when the championship competitions are being contested—Front warber.

Local News

Mr. and Mrs. R. Laslett spent Easter visiting relatives in Calgary.

Miss Gladys Lees came up from Lethbridge to spend Easter with her parents.

Wilfred Dutil of Coleman Hardware Co. spent a few days in Calgary.

Sidney White of High River high school staff, spent Easter holidays visiting friends in Coleman.

Mrs. Norman Shaw from Calgary is visiting her parents, Mr. and Mrs. Appenon.

E. W. Beart, Herb Snowdon and Walter Bobbitt were among those who attended the meeting of the 192nd Battalion at Blairmore to discuss the distribution of the canteen funds.

Gust Vandendries, left on Tuesday of last week for his old home in Belgium. He has lived here for fifteen years and worked at McGillivray mine.

Chas. Makin and Will Roughhead released over 50 homing pigeons at Pincher Creek last Friday, and on their return to Coleman it was discovered that one of the best birds had been wounded by a small rifle shot. The provincial police were notified, as it is a punishable offence to shoot at these birds.

Steady and persistent effort undoubtedly builds business. Those stores which carry advertising regularly in The Journal are the stores which are leading in business in their respective lines. Wide awake retailers appreciate the value of advertising and rightly view it as an investment to hold and increase business.

Car Smash Tuesday

At 6 p.m. on Tuesday, A. C. Bowling, salesman for the Scott Fruit Co., while travelling towards Coleman from Blairmore, in a Whippet car, was overtaken by S. Trono, jeweler, of Blairmore, driving a Hudson car. On Barrington's hill he attempted to pass Bowling's car to turn completely over and face the opposite direction to which it had been travelling. Trono's car was lying on its side.

A crowd very quickly assembled and provincial police officers from Blairmore arrived to investigate cause of the accident. Both cars were then taken to Blairmore for repairs. Mr. Bowling suffered injury to his shoulder and Trono is reported to have escaped injury.

"Wedding Bells" Play Is Arousing Interest

Unique Offer Is Made to Prospective Bridal Couples to Witness It Free of Charge

It is a little premature to forecast the players or the date of this amusing play, but any couple desiring to be married on the stage during the performance at Coleman opera house will be admitted without money and without price.

This is a splendid opportunity for intending brides and grooms to view this execrably funny play free of charge. If any couples are dissatisfied with their bargain they can ask for their money back. Parties desiring to take advantage of this kind offer must make their own arrangements for services of clergy, as the players concerned will be too busy looking after their own affairs.

ST. ALBAN'S CHURCH, COLEMAN

Sunday, April 27, holy communion 8 a.m.; evensong 7 p.m. The choir will again sing the anthem "The Rugged Cross." Doris Griffiths and Violet Currie will sing a duet.

The bishop will visit this parish in May, on a date to be announced. Gilbert and Wilfred Hoyle of Coleman and Norman Packer of Blairmore are attending the Boys' Conference at Lethbridge today.

Remember the wheat drive and dance Friday night in the Odd-fellows hall. Prize drawing in aid of Buck Grant will take place, and a big turn-out is anticipated for the occasion. Mrs. Grant appreciates the support given by all who purchased tickets to enable her husband to go to Cranbrook for chiropractic treatment.

Mr. and Mrs. W. E. Read of Pincher station, spent Good Friday and Saturday here the guests of Mr. and Mrs. Geo. A. Brown. They lived here several years ago, when Mr. Read was in charge of freight and express work at the local depot, consequently there are many friends here yet of former days, with whom they renewed acquaintance.

Mrs. W. G. Fraser returned last Thursday from Idaho, where she spent the winter with relatives.

WARNING

Persons trespassing or cutting trees or fence, or causing other damage on my property north side of Blairmore road will be prosecuted to the full extent of the law.

Legion Will Stage Carnival

At an executive meeting of the Canadian Legion held last week it was decided to hold a grand carnival on June 30 and July 1, and a sports day and first-aid competitions on July 1.

Action on securing building is deferred till further information is obtained by the executive.

Welsh Imperial Singers Gave Fine Concert

Talented Organization Under Lead of Festyn Davies Delighted Audience Saturday

On their return from the Pacific coast, the Welsh Imperial Singers stopped off here and gave a concert on Saturday evening in the Opera house. Unfortunately there was a small audience, but the program given was of a very fine standard, and highly appreciated by the audience.

Included in their repertoire were solos, duets, glee, part songs and choruses sung with splendid finish, while the accompanist, Norman Evans, a brilliant young pianist, was given an ovation at the end of the program. Had there been a better piano in the opera house, he would have favored the audience with some solos.

On Sunday evening they gave a concert also, which was attended by a packed house. Some annoyance was caused by ill-mannered children, who were removed by the conductor. During their two days visit here several members of the party were entertained by friends around town.

Mr. Festyn Davies, the conductor, stated to The Journal that in June the singers are booked for a week's engagement at the annual convention of Rotary International to be held in Chicago, at which representatives from all countries in the world where Rotary is organized will be present.

THE SALVATION ARMY

Captain Clifford Fowler and Lieut. Rumble,

Sunday Services, 11 a.m. Holidays meeting; 2:30 p.m. Sunday School; 7 p.m. Salvation meeting.

Monday at 7 p.m., B.O.L. class for girls; Thursday at 7 p.m., Boys' B.O.L. class.

Recognition of Union Becomes Dispute Snag

Effort to Settle Mines Dispute Is Being Continued

(Calgary Albertan)

"Negotiations are proceeding satisfactorily and everything possible is being done to avert a strike as a means of settling the wage disagreements between the miners and the coal operators," said Frank Wheatley, president, Mine Workers' Union of Canada, to The Albertan Monday afternoon, discussing the deadlock as a result of both parties being unable to reach a settlement in wage scale agreements, expiring March 31.

It was stated by Mr. Wheatley that recognition of the organization by the coal operators was an important matter holding up the dispute in the southern section of the province. Suggestions have come from the workmen at the mines, said Mr. Wheatley, that instead of calling the usual form of strike, the men will "strike on the job," that is do as little work as possible. Decision to follow the "passive measure" was due to the fact that owing to the present unemployment situation, there would be ample men to take their places in the mines at this season.

Board to Convene

Decision to strike, however, will not be reached until the board of conciliation, which has been called but not yet set up, has been established, it was said. This would allow a temporary respite of at least two weeks.

Mr. Wheatley has returned from a visit to the principal mining centres in the province, and expressed himself as optimistic that a serious rupture might yet be averted in the present situation.

He expects to leave for Nordberg for a brief visit to one of the mining centres, Wednesday, he said.

Owing to the resignation of Frank Leary, vice-president of the Mine Workers Union of Canada, an election will be held shortly, it was announced. Nominees for the position include James Sloan, Lethbridge; Ludwig Maurice, Bellevue; Rudolph Swegel, Drimann; John Stokluk, Coleman, and Mike Novak, Foothills.

Miss Olga Hole of the public school staff is spending the holidays at her home in Calgary district.

He rode a horse in "The Hot-tentot," but wait until you see him ride a bucking plane in this Air-Raid of Fun. Here's the ace of funmakers in an aviation comedy that takes the non-stop laugh record. Don't Miss It.

Catering To Tourists

Approximately twenty millions of dollars will be expended by the Governments of the three Canadian prairie provinces in the construction and maintenance of good roads this year, not to mention several more millions which municipalities will devote to other roads not included in the system of through Provincial highways and main market roads. It is a lot of money. It represents the largest single item of expenditure for any one service. It means an outlay of at least ten dollars for every man, woman and child in Western Canada.

A very considerable portion of this vast sum is being expended on the assumption that, quite apart from the benefits that will directly accrue to our own people by reason of these good roads, they will be the means of attracting an ever increasing volume of tourist traffic from other Provinces and the States to the south, and that these visitors will bring much business and profit to our people through the purchases and expenditures they will make in this country. In a word, the avowed object of a goodly portion of this expenditure is to encourage visitors to tour the West.

Good roads, admittedly, are essential if we are to develop a large tourist business. But, in themselves, they are not enough. These prospective tourists can find good roads, possibly better ones than we can offer, much nearer home, if a fine highway over which they can speed in comfort and safety is all they are looking for. They will come to Western Canada to enjoy a new, a virgin land, they come expecting something different. What is Western Canada going to provide?

Are we going to allow our highways to be disfigured, as they have been south of the international boundary line,—by unsightly billboards and advertising devices of various kinds, defacing the landscape, obscuring the scenic beauties our country has to offer, oftentimes confused by drivers with the legitimate road directions, signs, and an eyesore to all Governments and municipalities can, to a large extent, control the placing of such signs on the highway right-of-way, but individual property owners must co-operate by refusing permission for the erection of billboards and the plastering of signs on private property and buildings.

Our cities, towns and villages should seek to make their respective communities attractive to the visitor, and special attention should be devoted to the approaches to the main roads leading into and out of each settlement. The smaller the place, the more important it is that the surroundings be right, because they are noted to a greater extent by visitors than is the case in larger centres.

Community spirit and enterprise should find expression in having all places in which visitors are interested, and must visit, as, for example, hotels, cafes, garages, post offices, as clean, neat and efficient as possible. Gasoline and oil companies are setting a good example in making filling stations attractive in appearance, especially in larger centres, with rest rooms, wash rooms, comfort stations, etc. They are out to give service. Other businesses may well emulate them. Even the smallest place on a through highway can support such services.

The main highways through towns and villages should be clearly marked, and the location of such utilities as the post office, the telephone exchange, telegraph office, auto camp, prominently indicated.

Above all, courtesy should be the watchword of every citizen. It should be remembered that they are strangers who are entertaining in your midst. What to you is commonplace, is to them strange and new. They desire information; then go out of your way to supply it. Make them realize how welcome they are when they depart, if they carry away no other impression, they will at least, remember your town as one where the people were cordial, kind and helpful.

The millions of dollars that are being expended on highways is your money. Its expenditure is designed to benefit you and your community directly and indirectly. Make the most of it. This you can only do by individual and community co-operation.

A Modern Fog Alarm

Partridge Island Signal Derives Power From Diesel Engines

The Partridge Island light and fog signal station at the entrance to St. John's, N.B., harbor, said to be the first steam-operated fog alarm in the world, will in the near future derive its power from modern semi-diesel engines. In adopting this modern power the station may again lay claim to priority, for it will be the first of the kind in Canada. Other stations depending on oil engines have only internal combustion motors utilizing gasoline as a starting mixture and operating on kerosene as a regular fuel. The light on Partridge Island was established in 1791, and the fog signal in 1859.

Shipments From Peace River

During the calendar year 1929, the Peace River territory shipped to Edmonton 5,350 cattle, 28,100 hogs, 1,445 sheep and 750 horses, besides sundry other products, including sacked seed. Nearly 11,000 head of cattle were shipped in the last two years and over 100,000 acres were broken during 1929.

She: "Did you and your boss come to an agreement on your salary?" He: "Oh, yes; we decided to leave it as it was."

Changing Seasons

Brings colds and other ailments. Keep Minard's in the medicine chest. It's a great preventative.

W. N. U. 1834

Strikes in Canada Decrease

With One Exception Last Year Most Peaceful Since 1902

With one exception, 1929 was the most peaceful year in Canadian labor since 1902, the number of workers affected by strikes and lockouts falling to 12,924, and the days lost to 153,936. Steady progress toward happier relations between employer and employee has been registered now since 1922, the number of workers affected being as follows: 1922, 41,060; 1923, 32,868; 1924, 32,494; 1925, 25,796; 1926, 24,142; 1927, 22,683; 1928, 18,238; 1929, 12,924.

The figure for last year was only nine per cent. of the 1919 total, the year of the Winnipeg strike. Toronto figured in three of the minor strikes of the year. The painters' strike involved 600 workers, and lasted 38 days, the time loss being 7,800 working days. The plumbers' strike involved 400 workers, lasted 19 days, the time loss being 7,500 days. The plasterers' strike involved 500 workers for 12 days, causing 6,000 days' time loss.

ST. VITUS DANCE SUFFERER MADE WELL

Nerves Strengthened Through the Use Of Dr. Williams' Pink Pills

Time after time cases are brought to the notice of the public where sufferers from nervous troubles have been relieved by Dr. Williams' Pink Pills—where victims of St. Vitus Dance have been made well through the use of these pills after other medicines have failed to be of benefit. The reason for this is that Dr. Williams' Pink Pills act directly upon the blood—they make new, rich red blood, and in thus halting all impurities from the blood strengthen the nerves and make St. Vitus Dance impossible.

Mrs. P. Donnelly, Montreal, Que., is one more grateful mother who wishes to add her testimony to those already published. She says:—"My little girl, aged eleven, was a great sufferer from St. Vitus Dance. Several doctors prescribed for her without success. She was in the hospital for two weeks—still no benefit. Then I saw an advertisement recommending Dr. Williams' Pink Pills for St. Vitus Dance, so decided to try them. My little girl had only taken a couple of boxes when I noticed some improvement so I continued with the treatment. Till now she is completely free from the trouble and can enjoy herself as other children do. I can highly recommend Dr. Williams' Pink Pills to anyone suffering from St. Vitus Dance or any other nervous trouble."

Dr. Williams' Pink Pills are sold by all dealers in medicine or by mail from Dr. Williams' Medicine Co., Brockville, Ont.

Needs Assistance Of Engineers

To Secure The Best Social and Economical Development In Canada

"We went westward and now we are going northward," said Brigadier-General Charles Hamilton Mitchell, describing the development of Canada to the American Society of Mechanical Engineers, at Washington. General Mitchell made plain the results of improvement in transportation, in development of hydro-electric energy, among the people of the Dominion.

The general informed the assembled international engineers of the importance to Canada of the development of transportation by land, water and air, of the tremendous result of the mechanization of the agricultural industry, of the "miracle of paper," and the extraordinary mining development.

"Looking to the future," he concluded, "a young country such as Canada with its huge natural resources, will still more demand the fullest assistance and contribution from its engineers to secure the best economical and social development. When that best is obtained then the best political and cultural results will be assured."

He had spoken to her on the pier and she was very annoyed. "I don't know you from Adam!" she exclaimed indignantly. "You ought to," he retorted. "I'm dressed differently."

In spite of all jokes, figures prove that Englishmen are more saving than Scots.

The early bird gets the worm, but, unhappily, the too early bird gets the frost.

Catarrhazine A Ten-Minute Relief!

Loss Is Unnecessary

All Baby Chicks Can Be Raised If Properly Looked After

"There is no need in the idea so many people have, that you have to figure on losing a big percentage of your baby chicks," says P. F. Clardy, former president of the American Baby Chick Producers' Association, and for thirty-five years a practical poultry raiser. "Start with good vigorous chicks from healthy stock, properly hatched in modern incubators. Give them the right kind of care and feed, protect them from chilly winds and rains and from vermin and rodents, and in thus halting all impurities from the blood strengthen the nerves and make St. Vitus Dance impossible."

"In all my years of experience, I have found that, aside from the very important factor of starting with a quality of chick in the first place, the most important thing in poultry raising is to give the birds the care they are entitled to. A baby chick is a tiny bit of life, but how it will grow when it gets a good start!"

"I have found that strict attention to keeping the brooder absolutely clean is a great help. Flies spread disease! Cleanliness offsets it. Of course under exposure must be guarded against also."

"So long as the Chinese doctor keeps his patients well, the story says, he feeds his pay regularly. Whenever they become ill, his pay stops until he makes them well again. Consider yourself your own poultry doctor. So long as your birds are well and thrifty they will pay you; consequently it is up to you to interest to keep them well all the time."

Smothering Spells Couldn't Walk Far Gassed For Breath

Mrs. T. W. Roth, Kelowna, B.C., writes:—"For over a year I was troubled with smothering spells, and it was impossible for me to walk over short distances, on account of having to gasp for breath. A friend told me to try

MILBURN'S HEART NERVE PILLS which I did, and in a short time I felt much better. I can now recommend them to everyone."

Price, 50c, a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Synthetic Bee Stings

Perfection of synthetic bee stings has been announced by the medical laboratories of Vienna, Austria. Professors of the Polytechnic hospital made chemical analysis of bee venom, and claim to have succeeded in duplicating and improving it. The synthetic chemical is said to cure rheumatism.

Persian Balm is a true elixir of youth. Refreshes, rejuvenates. Adds a youthful charm to the complexion. Softens and beautifies the skin. A Model Community

In the town of New Lanark, Scotland, established as a model community by Robert Owen, there were no lawyers or magistrates and no legal punishment during a period of nearly 30 years.

Minard's Has Wonderful Antiseptic Power.

Not Properly Qualified

Toronto Professor Says Universities Too Equipped To Study International Relations

Canadian universities are not sufficiently qualified for an adequate study of international law and international relations, Prof. Norman MacKenzie, of the University of Toronto, told the House of Commons committee on industrial and international relations. He knew of no university in Canada, he said, which had a library equipped for the intensive pursuit of these studies.

The committee was considering a resolution sponsored by Miss Agnes MacPhail (Prog. South-east Grey), calling for the establishment of chairs and scholarships of international relations in Canadian universities. There was a field in Canada for improvement in this respect.

Prof. MacKenzie thought parliament might well consider aiding either by grants or other means. If the libraries were available Professor MacKenzie thought, the studies would be developed by the universities and the students themselves.

Another suggestion he advanced was that competent professors and students in Canadian universities be given greater opportunities to observe the operations of international business.

Many mothers can testify to the virtue of Mother Graves' Worm Expeller, because they know from experience how useful it is.

Preserving Historic Building

Alberta May Restore Old Fur House Built In 1785

Old Fort Edmonton, built 135 years ago inside an 18-foot stockade, may see partial restoration, according to the statement of Premier Brownlee in the Alberta legislature. The last building to be pulled down was the old fur-house, which until 1915, stood on the ground below the legislature. The proposal seems at present concerned only with setting up a log structure two storeys high, identical with this fur-house, which goes back to the time when John Rowland was chief factor between 1823 and 1854. Interest is being shown in the possible erection of a miniature of the whole layout of the early fort.

Minard's for Failing Hair

Thermometers Tested Yearly Every year, the Physical Testing Laboratory of the Topographical Survey, Department of the Interior, tests several thousand clinical thermometers for Government departments or for the general public. A certificate is given with each thermometer, which successfully passes the required tests.

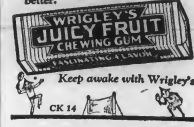

Dogs Have Rights

Because he drove his car over a Boston bulldog, Robert Miller, of Hamilton, Ont., was found guilty of cruelty to animals. He was allowed out on suspended sentence, but must make good the value of the deceased animal, which was \$60. Magistrate Burbridge ruled that dogs are entitled to the same consideration on the street as pedestrians.

New Industry For Canada

Eighteen Varieties Of Soybean Can Be Cultivated In Dominion

Canadian farmers are finding a new opportunity in the cultivation of the soybean. During 1929 soybean oil and other products to a value of nearly \$2,000,000 were imported by Canadian industries. Experimental work conducted by the Dominion Department of Agriculture shows that eighteen varieties can be successfully cultivated in Canada. It grows under essentially the same conditions as corn, and generally speaking, can be grown anywhere corn grows, and with about the same results.

Fresh Supplies In Demand

Wherever Dr. Thomas' Electric Oil has been introduced, increased supplies have been ordered, showing that wherever it goes this excellent oil improves its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put in most portable shape in bottles and can be carried without fear of breakage.

The Modern Wolf

The wolf that used to sniff around the door now occupies an easy chair in the parlor, right next to the radio, and within easy reaching distance of the iceless refrigerator, the vacuum cleaner, and other necessities of life.

Perfect dyeing so easily done!

DIAMOND DYES contain the highest quality dyes money can buy! That's why they give such bright, new colors to dresses, drapes, lingerie.

The anilines in Diamond Dyes make them so easy to use. No spotting or streaking. Just clear, even colors, that hold through wear and washing.

Diamond Dyes never give things that re-dyed look. They are just like at all drug stores. When perfect dyeing costs no more—is so easy—why experiment with make shifts?

Diamond Dyes Highest Quality for 50 Years

EMIGRATION TO CANADA SHOWS BIG INCREASE

London, Eng.—Emigration to Canada has increased more than 25 per cent. during the past four years, although emigration to dominions generally has shown a considerable falling off since 1926. It was disclosed in the House of Commons.

Hon. W. R. Smith, parliamentary secretary of the Board of Trade, in reply to questions said emigration to Canada had increased year by year, namely from 49,632 in 1926, to 65,558 in 1929, while Board of Trade figures showed the aggregate emigration to Canada, Australia, New Zealand and Australia had decreased from about 119,000 in 1926 to about 84,000 in 1929.

The colonial office also was questioned with regard to Dominion emigration. Dr. Drummond Shiels, parliamentary under-secretary, stating he would circulate detailed figures later. He gave the same figures as Mr. Smith for Dominion emigration generally, stating emigration to Canada showed an annual increase.

Twelve Rescued From Sea

Voluntary Missionary and Family Stranded in Motor Boat

Panama City.—Stranded for nine days in a motor launch in the Caribbean Sea east of Colon, J. W. Miller, of Jacksonville, Fla., and his wife and nine children and a negro seaman were rescued by the Cuban gunboat "Patricia" after their doom from starvation and exposure was imminent.

Miller and his family, the youngest of whom was seven months old, started out from Boca Del Toro, Panama, in Colon, in a small motor boat. Six days later they ran out of fuel while only a short distance from their objective.

For days after that he watched for craft which might help him to get to Colon. Twice he signalled passing boats with a small flag he had with him, but was unable to make himself seen. The "Patricia" sighted him about three miles off Colon and brought the party of 12 to port.

The Millers are a family of "voluntary missionaries." They left Jacksonville in June, 1928, for a cruise through the West Indies, and in the course of their trip they founded the mission "Church of God" on the Isle of Pines, Cuba.

Keeping Up Record

World's Champion Egg-Laying Hen Still Leads In Production

Saskatoon. — Lady Victorine, world's champion egg-laying hen, is doing very well in her second year. When this Barred Rock pullet, who lives at the University of Saskatchewan, completed her first year of egg production, during which she laid 258 eggs, she did not moult immediately but laid another 16 eggs last September.

Towards the end of December she resumed business, laying four eggs in that month. In January, February and March she worked steadily and produced as many eggs as the average Saskatchewan hen does in a year.

France Protects Auto Industry
Paris.—From ten to 60 per cent. higher tariffs on United States automobiles became effective under a bill passed by the chamber of deputies and the senate. The government contended the law was intended merely to simplify the customs routine by changing from ad valorem to specific duties. Arguments in parliament were based upon the theory that the French auto industry needs more protection.

Will Reinstate Clause

London, Eng.—The House of Commons has voted, 194 to 50, to reinstate in the Army Estimates bill the clause abolishing the death penalty for cowardice and desertion. This was the answer of the Lower House to the action of the House of Lords in deleting from the bill the clause doing away with the penalty.

Presentation For Byrd

Wallingford, Conn. — A sword wrought in gold, silver and enamel to commemorate Rear-Admiral Richard E. Byrd's achievements as geographer, flyer and seaman will be produced here for the State of Virginia. It will be presented by the state to Admiral Byrd upon his return from the South Polar regions.

A new electrical device can be used to seal broken blood vessels.

W. N. T. 1934

Predicts Early Election

May Be Held This Year, Says Hon. R. B. Bennett

Calgary.—"All appearances point to the calling of a Dominion election before the end of the present year," asserted Hon. R. B. Bennett, on his return to Calgary following adjournment of the Federal House for the Easter recess.

"I notice that one of the government supporters in Edmonton has fixed the date on which an appeal will be made to the people, but I doubt if the Prime Minister himself has yet determined that point.

"The budget will probably be delivered shortly after the Easter recess," Mr. Bennett continued, "and there is much conjecture as to what it will contain. Undoubtedly promises have been made to the agriculturists of Quebec that a tariff will be imposed on fruits and vegetables, and the iron and steel producers have been assured that their industry will receive protection under the new tariff.

"The action of Australia in imposing a surtax to practically prohibit the importation of many commodities is justified by the Australian Government as the Canadian Government imposed a dumping duty of six cents per pound on importation of butter from Australia after a treaty had been signed between Australian and Canadian Governments agreeing to a duty of one cent per pound on these importations. The whole problem of Australian trade is engaging the attention of the government at the present time."

Tariff Commissioner Retires

Fellow-Workers of J. A. Russell Hold Banquet in His Honor

Ottawa, Ont.—Warm appreciation of the faithful and efficient service which he has given to the Dominion over a period of more than half a century was voiced at a banquet given on Tuesday night by the fellow-workers of James A. Russell, retiring commissioner of tariffs for the department of finance.

The event was signalized by the attendance of friends and fellow-workers of Mr. Russell, from the department of finance, the department of national revenue, the tariff advisory board, and the department of external affairs, who gathered at the Royal Ottawa Golf Club to do honor to the retiring commissioner.

After serving the country for fifty-three years, during which time he was associated with six finance ministers, Mr. Russell now retires on pension under the seventy-five year age provision.

Trouble In British Textile Mills Growing

Workers Fighting Wage Reduction Employers Deem Necessary

London, Eng.—Day by day the prospects of a long stoppage of work in the woolen and textile industries seem to be growing and it is now feared—unless the government steps in—the country must face a long and bitter struggle between the men and women who will not accept wage reductions and the employers who, acting on the report of Lord Millican, deem such reductions necessary to the continued existence of the industry.

Today the General Trades Union congress appealed to its affiliated trade unions for financial assistance for the Yorkshire workers. The general council itself headed the list with a contribution of five hundred pounds, or about \$2,435.

Plans Return Next Year

Kaye Don Faced Many Difficulties In Trial For Speed Record

New York.—Kaye Don's first attempt to smash the world automobile speed mark on the sands of Daytona Beach is over but the dapper little Englishman with the bristly blonde moustache will be back again for another go at it next year.

It has been anything but a pleasant expedition for the debonaire king of Britain's amateur tracks who set forth like a schoolboy on a holiday two months ago to crash Sir Henry Seagrave's mark of 221 miles an hour in the massive Silver Bullet built especially for him by the Sunbeam Motors of England. Twenty-two times Don battled a set of coughing motors and the unusually rough Daytona sands without coming closer to the record than 198 miles an hour.

Thousand Acres Sown

Lethbridge, Alberta.—O. E. Laster has completed sowing 1,000 acres of wheat innumerable. Several farmers of the Bow Island district have finished wheat seeding. The recent rainstorm is the cause of much jubilation by these farmers.

Canadians Well Informed

Are Acquainted With Public Affairs Says Lord Willington

Vancouver.—The difficulties of a governor-general who is being constantly asked to deliver addresses and yet is surrounded by limitations in what he may say, were good-humoredly referred to by His Excellency Lord Willington in addressing a luncheon of service clubs here.

Speaking of the work of service clubs and of the opportunity they offered for the study of public affairs, Lord Willington expressed his opinion "that the citizens of Canada are perhaps better informed on public affairs than citizens of any other country. I wish that in my country we had more of these organizations so that the citizens of my country would know more of empire affairs than they do now."

To Cut Grain Acreage

Special Survey Discloses Substantial Reductions In North Dakota

Washington, D.C. — Governor George F. Schafer, of North Dakota, and John L. Coulter, chief economist of the tariff commission, told Chairman Alexander Leage that substantial reductions in both hard and soft spring wheat acreages may be expected in North Dakota and neighboring areas covered by a special survey made by Coulter.

The eastern section of North Dakota, the chairman said, is expected to reduce its acreage of durum wheat more than the 15 per cent. forecast by the Department of Agriculture. The reduction of hard spring wheat in the western section will be less, but of considerable importance.

MANY INJURED DURING SERIOUS RIOT IN INDIA

Calcutta, India.—Nineteen persons were injured in heavy fighting between Nationalists and police in the Bhowanipore Sikh quarter of Calcutta. Tram cars were burned in both Calcutta and Bombay and armored cars patrolled the streets of the latter city when students and carters joined in the attempt to stop vehicular traffic by obstructing roadways and tram-lines.

Six European officers were among the injured at Calcutta. A European woman cycling in the district, was forced to dismount and abandon her machine when she was stoned by the crowd. She received nasty gashes. Ten Khaliasta were injured.

There were unconfirmed reports of firing in North Calcutta. Armed police were on duty throughout the affected area and armored cars were active.

Seven British officials were injured by the time the situation was brought under control. Two members of a South Calcutta mob were injured when a European police sergeant opened fire to save an injured fellow-officer who was being attacked. A fireman suffered a fractured skull when he was attacked by a crowd opposing his efforts to extinguish a tram-car blaze.

Miss Daisie Dench, London girl, who attempted against police advice to ride a motorcycle through a riot section, was taken to a hospital with deep gashes from stones which the hostile mob flung at her. Her way was blocked and she had run for her life amid a hail of broken road material.

Canadians at White House

Hon. Vincent Massey, Canadian Minister to the United States, accompanied E. W. Beatty, chairman and president of the Canadian Pacific Railway, on a visit to President Hoover recently. They are here seen leaving the White House in Washington.

ANGLO-CANADIAN COMEDienne

Betrice Lillie, the vivacious Anglo-Canadian comedienne, is now in Hollywood preparing to make a talkie. She is the wife of Sir Robert Peel.

Britain Acts On Liquor Shipments

Will Introduce Bill To Safeguard Interests Of U.S.

London, Eng.—The House of Commons, by a vote of 215 to 142, gave a Liberal member leave to introduce a bill to entitle the board of trade to suspend or cancel the certificate of any master, mate or engineer engaging in the illicit importation of intoxicating liquor into United States territory.

After Isaac Foot, Liberal member from Cornwall, had spoken for ten minutes advocating the measure, Frederick A. Macquisten, Conservative member from Argyll and a lawyer who sometimes acts professionally for the liquor trade, opposed the bill in a speech filled with humorous remarks.

Lady Astor, United States-born peeress and ardent temperance advocate, interrupted Macquisten several times.

Night Editor Of Calgary Herald Dead

P. W. Stone Was Well Known Throughout Canada

Calgary.—Percy W. Stone, for more than ten years night editor of "The Calgary Herald" and known from coast to coast as one of Canada's veteran newspapermen, died, April 13, following a heart attack. He was 54 years of age. Prior to becoming associated with "The Herald," Mr. Stone worked on "The Winnipeg Telegram," and later became editor of "The Bassano Mail," and managing editor of "The Craig and Canyon" in Ennif.

Mr. Stone was an Englishman by birth, but came to Canada as a boy and taught school in Ontario before coming west.

Dirigible To Span Atlantic

London, Eng.—The British dirigible R-105 will attempt to bridge the Atlantic this spring, the first step toward the British dream of an air-laid empire. Meanwhile the Graf Zeppelin will start on its sixth trans-Atlantic trip. The United States, focal point of former air lines crossings, will be neglected, for the R-105 will point for Canada and the Graf for South America.

Lightning Wrecks Radio

Monkots, Sask.—The radio set was completely demolished and the house wall set on fire when the home of Alfred Jensen, here, was struck by lightning during a severe thunderstorm, accompanied by heavy rains.

Establishes New Speed Record

Pilot Buchanan Makes Fast Flight From Winnipeg To Regina

Regina.—A flight from Winnipeg to Regina in two hours and 45 minutes, establishing a new speed record for that leg of the Western Canada air mail service, was made by Pilot W. J. Buchanan on April 13, in a Fokker F-14 machine.

He left Winnipeg at 9:05 p.m. (Winnipeg time), or 8:05 p.m. Regina time, and arrived here at 10:50 p.m. (Regina time).

There was a 25-mile an hour wind blowing from the southeast during most of the flight, but unfavorable weather made it necessary for him to "fly blind" from Broadview to Regina. The total distance is 330 miles.

Surveyed Air Mail Routes

Superintendent Of Airways Return To Ottawa From West

Ottawa.—Making a two-day stopover flight from High River, Alberta, to the capital, Squadron Leader J. H. Tudhope, superintendent of airways for the civil aviation branch, has returned from a survey of air mail routes in Western Canada. The return flight of approximately 2,000 miles was made in 17 hours and 50 minutes flying time. Five stops were made.

Major Tudhope's survey had as its purpose an investigation of possible routes for the final links in Western Canada of the trans-Canada Air Mail Service, to be completed in the near future.

Impressed With Bay Port

Development At Churchill Was Surprise To Premier Bracken

The Pas, Man.—Churchill will probably not be thrown open to the public this year is the opinion of Premier John Bracken, who has returned from his first visit to the northern seaport.

Mr. Bracken stated it would seem unwise to open it to the public as no provision has as yet been made for public utility other than those for the government men who will be employed there this year.

Premier Bracken stated he was impressed with the magnitude of the development at Churchill.

PROPORTIONAL REPRESENTATION VOTING SYSTEM

Ottawa, Ont.—Proportional representation, which now is occupying the attention of the administration and of the opposition members as well, is not a new subject in Ottawa. In the House of Commons a few days ago, Premier Mackenzie King intimated the government is giving the matter consideration and said the progress made during the session will determine whether or not a bill is introduced.

In 1921, a committee of the House investigated "P.R." The committee recommended taking a plebiscite because it was "not prepared to recommend the application in the next general election." The committee was impressed by the arguments presented by the advocates of the system and in its report said:

"It must be apparent that the present system of elections in single-member constituencies meets fully the purpose intended only when no more than two candidates are nominated. Recent experiences in elections in Canada have brought home to our people the fact that when three or more candidates present themselves in single-member constituencies, the candidate declared elected may, and often does, represent merely a minority of those voting in the constituency."

It was after the 1921 election that a debate and division took place on the report. W. C. Good, Progressive member for Brant in 1923, introduced a motion calling for the adoption of "P.R." in the next general election. Practically all the then leaders took part in the debate and in the division that followed, the motion was lost. Among those who voted for it were Premier Mackenzie King, Hon. W. S. Fielding, and Hon. Ernest Lapointe, Minister of Justice. Right Hon. Arthur Meighen then leader of the Conservative party led the forces opposed to the motion although party lines were not followed rigidly in the division. Hon. Lawrence Carter, solicitor-general and Hon. James Macdonald, Minister of Trade and Commerce, were two of the present cabinet ministers who voted in opposition to the motion.

WORK OF NAVAL PARLEY GIVEN IN WHITE PAPER

London, Eng.—Parliament has received a "white paper" which summarized the work achieved thus far by the London naval conference.

Among other points Premier MacDonald cited the tonnage reductions negotiated and the attendant saving in money. In conclusion the "white paper" says:

"Important as are these financial savings yet a more important result of this first stage of the London conference has been the elimination of competitive building in cruisers and auxiliary craft between the British Commonwealth, the United States and Japan, with all that this implies in mutual improvement of their political relations."

"Figures on agreement between those powers have been placed at a low level, and it is the earnest hope of His Majesty's government that during the next stage of the conference agreement may be reached with the French and Italian governments at levels which will permit their programs of tonnage figures being incorporated in the agreement already reached between the other powers."

"After signature of the treaty the conference will adjourn in order to give further time for negotiations between the French and Italian governments and the United States, in view of the difficulties which as yet prevent complete agreement."

"These negotiations may be prolonged and it is necessary that delegations from distant countries, which are not so immediately concerned, should remain in London while the conversations are proceeding. It is for this reason that adjournment has been decided upon."

Will Not Seriously Affect Canadian Trade

Chancellor Of Exchequer Announces Tariff Changes In British House

Ottawa.—Tariff experts of the Dominion Government are anxiously studying the tariff changes announced by Rt. Hon. Philip Snowden, chancellor of the exchequer, in the British House of Commons. The general opinion expressed is that they will not seriously affect Canadian trade. The fact that the McKenna duties remain on motor cars, motion picture films and musical instruments is most important.

The removal of the McKenna duties and the strict control of the advantage which Canada now has over the United States in the British market and the products would be allowed in free from both countries. According to information here based on Mr. Snowden's announcement, the first of safeguarding duties which will pass out of existence is that on lace and embroidery. This duty was put on five years and would end on July 1 next. As Canada does not export this product it will not affect Canada. The duty on cutlery comes off on December 22 next.

Prince Flies From Khartoum To Cairo

Expects To Leave Africa Very Shortly For England

Khartoum, Upper Egypt.—Prince of Wales and the party which was with him throughout his hunting in British East Africa, left here in six aeroplanes for Cairo. They will leave there for England shortly.

The Prince, before boarding the plane, put on a woolly jacket and scarf over a khaki shirt and shorts, because of the chilly morning.

Hardly had his plane, with four escort planes, disappeared in the north, when five other planes bearing other members of the party and baggage, departed.

Diocease Will Be Transferred

The Pas, Man.—Plans for establishment of Roman Catholic diocese headquarters at Churchill, on Hudson Bay, were revealed here by Rt. Rev. A. Turqueti, O.M.I., bishop at Chesterfield Inlet. The "Bishop of the Arctic" stated that no definite date had been set for transfer of the diocese headquarters from Chesterfield to Churchill.

Boys Killed In Fire

Lucata, Sicily.—Fifteen boys, ranging in ages between 15 and 18, were killed in a moviehouse fire and stampede. A general rush for the exits, following a canister shot fired in the room, was the cause of the fatalities. In addition, three others were seriously injured and five were slightly hurt.

NOTES AND COMMENTS

We hear some wild talk on capitalism. It is represented by propagandists who haven't any, or who want to create the impression they are championing labor, as a terrible menace—a crushing giant which must be overthrown if the worker is to obtain a living wage.

It is a fallacy. You may as well call the man who saves money, and who purchases a home and a little piece of land, or a farmer with his quarter section, as a capitalist. He has capitalized by saving while others, who earned possibly the same amount of money as he, spent.

Who furnishes the money to develop coal mines, gold mines, oil wells and railways? Hundreds of thousands of people who invest their savings in various companies which sell stocks or shares on the exchanges. Labor and capital hitched together produce additional capital. Remove all the capital or material wealth of any kind from circulation, and everybody make a start from the ground up; still you would find energetic and ambitious individuals would progress and achieve a greater measure of success than those who are always in the "just get by" class.

Some are endowed with, or cultivate a broad vision, and benefit thereby. Others are not inclined that way. The law of Nature never intended that all should act and think alike. And this accounts for the many seeming inequalities in the various stratas of the human race.

Many of those who are so constantly harping on dividing the wealth of the world, have none of their own to share, or if they have, they divert attention from the fact by trying to "pull the wool" over the eyes of those who have not the ability to see through their camouflage. There is always "bunk" being handed out by people who cannot offer even a shadow of a suggestion as to how to improve or change the conditions of which they make so much discordant babble.

Always remember that "the world is full of hopes for the man who has hope for himself." Creative effort benefits the human race—destructive criticism breeds discontent and hopelessness.

The greatest problem the coal industry faces—operators and miners alike—is the development of a more extensive market. It is in this direction that persistent effort must be applied until the objective is reached. Even then there cannot be relaxation, for to even hold our own there must be continual vigilance.

Yes! it would indeed be ideal to have heaven on earth, but there are always so many by their misguided efforts helping to make it more like hell on earth. Just this week a complaint was investigated by police officers, of a person who seized on the fact that by collecting 25c for a program at a recent Sunday concert, Coleman amateur orchestra had made themselves liable to prosecution under the Lord's Day Act. It is a wonder this "Christian" does not buck at the plate being passed for the collection in church.

What was at first thought to be a near riot down town proved to be nothing more serious than a friendly argument in which each party was getting "het up" on something they apparently knew very little of. But then empty box cars always make more noise than when loaded.

The best way to make friends is to show a spirit of friendliness.

The finest things in the world will not sell themselves. This was demonstrated in the appearance of the Welsh Imperial Glee Singers, a very talented aggregation of male singers, whom it was a rare treat to listen to, and whose visit brought a touch of cultural life to the community. No advance work was carried on to herald their appearance beyond some posters displayed, whereas there should have been some aggressive selling of tickets in order to awaken popular interest. The visit of an organization such as this, which is an opportunity we can seldom take advantage of in the Pass towns, demands real work by an organization responsible for booking such a company. Though it is no use lamenting the fact, yet it is hoped that should a similar opportunity again occur sufficient public interest will be created as to ensure talented singers the reception they richly deserve.

A Vancouver minister, of St. Paul's Presbyterian church, lost \$10,000 by trading in wheat futures. Again demonstrating that it is better to stick to the job you know best instead of gambling in futures. He lost everything he had and owed the broker \$700 besides.

Here and There

(512)

"As a political creed communism is practically discredited in China today," said Colonel G. W. Birks, in charge of Y. M. C. A. work in the Far East, interviewed as he passed through Winnipeg recently en route to Montreal after a six-months stay in the Orient. Colonel Birks thought that China would shortly split into independent parts, North and South China.

Seeding has become general in some Saskatchewan points and in many farming centres of Alberta, and is expected to be general shortly if favorable weather conditions continue, according to reports coming in to the Winnipeg offices of the agricultural department of the Canadian Pacific Railway.

Seventy head of finest thoroughbred stock arrived at Saint John recently to go forward by Canadian Pacific Railway to the Prince of Wales ranch at High River, Alberta. It is the first shipment of the kind to the ranch in the past four years. The majority are pedigree shorthorn cattle.

"There is at present in Great Britain a decided awakening of interest in the Canadian universities," said Dr. Cyril Norwood, headmaster of Harrow, one of the most famous of English public schools and Alma Mater of Lord Byron. Dr. Norwood is chairman of the delegation of British headmasters here on a tour of inspection of ten Canadian universities. He arrived at Saint John recently aboard S.S. Duchess of Bedford.

Canada's first ranking tennis star, Dr. Jack Wright, figures lion shooting, elephant halting and antelope hunting is just the kind of sport to keep a tennis player in trim. Arriving at Vancouver recently aboard S.S. Empress of Canada, Dr. Wright says he feels in great shape for the forthcoming Davis Cup matches.

Retirement of C. E. McPherson, assistant passenger traffic manager Western Lines, Canadian Pacific Railway, after more than 50 years of railway service, and promotion of six other officials of the department from coast to coast of Canada, has been announced, effective May 1. Promotions are: H. W. Brodie to be overseas passenger manager; R. G. McNeillie to be assistant passenger traffic manager, eastern lines, Montreal; H. R. DesBrisay to be assistant passenger traffic manager, western lines, Winnipeg; E. P. L. Sturdee, general passenger agent, Vancouver; H. R. Mathewson, general passenger agent, Winnipeg; and George H. Carter, assistant general passenger agent, Montreal.

The annual production of honey in Canada is about thirty million pounds. While a great deal of honey is used in the home, the principal commercial users are confectioners, bakers and bottlers.

At the World's Poultry Congress to be held at the Crystal Palace near London in July, a feature of the Canadian exhibit will be a model of the Prince of Wales' ranch at High River, Alberta. It will occupy 100 square feet of space and will be fitted with electric appliances and lighting that will show the ranch in a novel and attractive way.

Remington Portable Typewriter

would make a suitable Birthday gift to a high school student or those attending business college.

Those who have correspondence---business or private---which requires frequent attention, will find one of these convenient machines a time-saver, with the added attraction of neatness to letters.

They are furnished in various colors---two tone green, mauve, blue, black and red.

Cash price is \$75.00.

Term price, \$10 with order and \$10 monthly, or \$5.00 cash and \$5.00 monthly, plus carrying charges.

WORLD HAPPENINGS BRIEFLY TOLD

The 900th anniversary of the Speyer cathedral will be celebrated on July 12, 13 and 14 of this year.

Summer time in England went in to effect at 2 a.m. April 12, and clocks were set one hour ahead.

Pilot Mermoz broke the French duration record in a seaplane, landing after thirty hours, twenty-five minutes and forty seconds in the air.

The salaries and expenses of the pensions appeal board of Canada last year were \$15,100 in excess of the amounts they had made.

Production in the cotton and jute industry of Manitoba for 1928 amounted to \$5,043,413, which is a little more than one-fifth of the total production for Canada.

Kayce Don, British automobile racer, has definitely abandoned his plans for attempting to beat the world's automobile speed record at Daytona Beach, Florida.

Marquis still constitutes more than one half of the western grain crop, growing tests of samples taken from forty-eight cargoes of Canadian wheat exported to England in 1928-29 show.

Plans to negotiate a parcel post treaty between Cuba and Canada are being studied by the Cuban state department. The treaty would seek to increase the consumption of Cuban products, principally sugar and tobacco in Canada.

Thirty-four dairy herds qualified this year for honor roll certificates issued by the Department of Agriculture. On this basis of this newly introduced system of recognition 13 herds would have qualified in 1927, and 27 in 1928.

University Students in Canada
56,042 Students Enrolled At the End Of 1928

Students doing work of university standard and taking matriculation courses in Canada at the end of 1928 totalled 56,042 of whom about 20,900 were women. Of the total 40,987 were full time students, 3,813 part time and 11,603 vacation short course and extension students, 361 being duplicates enrolled in more than one category.

There are 23 universities in Canada, of which six are state controlled. The total teaching staff of universities numbers 1,078, of whom 3,544 are men and 534 are women.

In all the educational institutions of Canada the enrolment totals 2,342,391, of which 2,054,298 attend publicly controlled kindergarten, elementary and secondary schools.

"Willie, didn't I tell you to shut that shutter?" said Willie's mother.

"The shutter's shut," replied Willie, "and I can't shut it any shutter!"

Flight ambulance airplanes now operate through the Sahara Desert.

Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods. You know this better method. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume stomach acids, and at once. The symptoms disappear in five minutes.

SUNDAY SCHOOL LESSON

APRIL 27
EASTER LESSON
Golden Text: "He is not here; for He is risen."—Matthew 28:6.
Lesson: John 20:1-18.
Devotional Reading: Ephesians 1:15-23.

Explanations and Comments
Mary Magdalene's Discovery Of the Empty Tomb Of Christ, verses 1, 2.—The stone had been placed over the entrance of the tomb in which the body of the crucified Saviour had been laid (Mark 15:46), and the stone had been sealed in a groove at the base of the opening of the tomb. Early on Sunday morning Mary Magdalene came to the tomb with the others, as the "we" in the next verse indicates. She found the stone removed. At once she hastened to tell Peter and John (John always refers to himself in his Gospel as "the disciple whom Jesus loved"). "They have taken away the Lord out of the tomb, and we know not where they have laid Him," she cried.

John's and Peter's Discovery Of the Risen Lord, verses 19-20.—Peter and John ran to the tomb. John reached there first, and, looking in, he saw the linen clothes lying on the floor. Peter then entered, and the Saviour's body had rested, he beheld only the linen clothes in which it had been wrapped. Then Impetuous Peter rushed into the tomb and saw a wonderful thing: the linen clothes which had enveloped Christ's body were rolled up, and the napkin, which had been about His head, was in another place. Leisurely he ordered Mary Magdalene to follow him, and he carried off His body, the grave clothes would not have been left. Then John also entered the tomb, and the sight sufficed him; he believed that the Lord was risen. "What was it that John believed? That Jesus had risen? Surely this, but further, that the Lord was risen in the flesh. He was therefore the divine Son of God. The conviction then produced by the sight of the empty tomb was the conviction that the source of a life of loving devotion for the apostle John"—C. R. Erdman.

Mary Magdalene's Discovery Of the Risen Lord, verses 11-16.—Mary, who had followed Peter and John back to the tomb, remained outside, weeping. Looking into the tomb she saw two angels clothed in white and sitting where the body of Jesus had lain. The Greek word for "angel" means "one who is sent with a message," and the message for Mary was, "Woman, why weepest thou? There was no cause for weeping, but great reason for rejoicing.—The Lord had risen!"

"John's insight taught him first to conclude that his Lord had risen; Mary's want brought her Lord first to satisfy it," for she turned she beheld Jesus standing. But she did not recognize Him, the synoptists (Matthew 28:17; Mark 16:12; Luke 24:16, 37 and John in 21:4), speak of His form as altered; His eyes, moreover, were dim with tears. Woman, why weepest thou, whom seekest thou? Jesus questioned her.

Supposing Jesus to be the gardener, or garden-keeper, the only one who would naturally be there at that hour, Mary said to him, "Sir, if thou hast borne Him hence, tell me where thou hast laid Him, and I will take Him away." How natural it was that she did not mention Jesus' name; there could be no one else thought of.

"Mary," said Jesus, and "Rabboni," Teacher, she cried. "It was only an instant's work, but all the quick emotions of a life-time were endured. That voice! In a flash the cross was forgotten, the tomb forgotten; the mystery of how the dead could live again was unthought of. Mary! Master! Deeply called to deep, and the testimony of the inner spirit defied all logic and all contradiction. 'I know that my Redeemer liveth!'"

Along the Frontiers in Manitoba
Manitoba May Develop Salt Water Fishing At Churchill

Manitoba, with Churchill as its seaport, has assumed the status of a Maritime province, and development of an extensive salt water fishing industry is one of the possibilities in the near future. Hon. D. A. McKenzie, Minister of Mines and Natural Resources, prophesied such an industry during an address in Winnipeg. He had been informed by those qualified to speak that there was every prospect of good fishing being conducted on a large scale, with Churchill as the base for the fishing fleets.

WHY SUFFER FROM YOUR LIVER?

Why be handicapped with unsightly blotches on the face, eyes with watery lids and that tired and languid feeling? This indicates a torpid liver. Headache, Dizziness and Biliousness surely follow. You must stimulate your lazy liver, start the bile flowing with Carter's Little Liver Pills.

They also act as a mild laxative, purely vegetable, free from calomel and poisonous drugs, small, easy to swallow, and not habit forming. They are not a purgative that cramps or pains, unpleasant after effect following on the contrary a good tonic. All Druggists 25c and 75c red pigas.

Southerners Are Anxious To Visit Canada

Opening Of Hudson's Bay Route Has Been Great Advertisement

Thousands of American tourists from the southern states will visit Canada this year as a result of the advertising given by the Dominion through the opening of the Hudson's Bay Railway, stated E. A. McCallum, of Regina, who returned to the city after a three months' vacation spent in Mississippi and Alabama.

"Everywhere I found the greatest interest in Canadian affairs," Mrs. McCallum said. "The opening of the Hudson's Bay route has been a tremendous factor in calling attention to the development in this country. Many of these southerners had had an idea Canada was a land of snow and 60 below zero temperatures. Now they want to see this great country which has an ocean outlet at its extreme north."

Winnipeg Newspaper Union

Everybody Satisfied

Family Could Enjoy Reading Paper By New Method

The latest invention is a machine which read aloud from the printed page. This should prove a boon to the army of men who have to hurry to work in the morning. They could get their morning paper, net the machine going while they whistle in the bathroom, take it to breakfast and let it run till they did good-bye to their superior halves at the front door, by which time they would have heard the chief news. Then the paper could be left for the ladies of the household to read the shop advertisements, the social news, etc. The whole house would be satisfied.—Montreal Gazette.

King Buys Stamp Collection

King George V, who is an ardent stamp collector, has purchased the famous Purves collection of Australian stamps, which was awarded the gold medal at the 1928 international philatelic exhibition at Melbourne. The price is believed to have been two thousand pounds. The collection contains examples of all issues, many of which are unique.

Rubber Overshoes For Planes

Lace Over Wings and Prevent Formation Of Ice

Overshoes for aeroplanes—a new method of keeping wings free of dangerous ice—were announced at Cornell University, Ithaca, N.Y.

They are a discovery in safer flying announced as a result of "successful tests" in the mid-west.

The overshoes lace over the forward edge of the wing. They are a thin layer of specially vulcanized rubber exuding continually a colorless oil which is the secret of the success. It is announced that the ice does not stick nor the oil "scrub off."

This slipperiness alone is insufficient and so the overshoes have a small hose under their striking edge. A slight pulsation of pump driven air in this hose breaks the ice as it forms on the wing edge, and so prevents air from pressing the forming ice fast against the wing.

Sodium Sulphite Deposits

Over One Hundred Million Tons Of Natural Hydrous Sulphite Found In Saskatchewan

As a result of investigation made by the Canadian Government Department of Mines, it has been established that the sodium sulphite deposits in the Province of Saskatchewan contain over 100,000,000 tons of natural hydrous salt. These deposits have been looked on as of great potential value not only to meet commercial requirements in Canada but because of the possibility of developing important export markets. One of the important uses in Canada is in the pulp and paper industry where large tonnages of the anhydrous sodium sulphate or "salt cake" are used in the production of sulphate or kraft pulp.

Children CRY for it

It may be the little stomach; it may be the bowels are sluggish. No matter what costs a child's tongue, its a safe and sensible precaution to give a few drops of Castoria. This gentle regulation of the little system soon sets things to rights. A pure vegetable preparation that can't harm a wee infant, but brings quick comfort—even when it is colic, diarrhea, or similar disturbance. And don't forsake Castoria as the child grows older. If you want to raise boys and girls with strong systems that will ward off constipation, stick to good old Castoria; and give nothing stronger when there's any irregularity except on the advice of a doctor. Castoria is sold in every drugstore, and the genuine always bears Chas. H. Fletcher's signature on the wrapper.

Recipes For This Week
(By Betty Barclay)

VANILLA DESSERT WITH CHOCOLATE SAUCE
1 package vanilla junket.
1 pint milk.

Prepare junket according to the directions on package. Let stand until firm, then chill.
Chocolate Sauce: Melt 1 square unsweetened chocolate in saucpan, placed in large saucpan of boiling water. Add 1 tablespoon melted butter, and when thoroughly blended, pour on gradually, while stirring constantly, ½ cup boiling water; then add 1 cup sugar. Bring to the boiling point and let boil fourteen minutes with ½ teaspoon vanilla.

BAKED ECONOMY
Into a well-buttered pan put slices of raw peeled potatoes and a little pepper. Then a layer of uncooked, sliced ham. Add another layer of potatoes and ham and pour on this cream sauce (1 tablespoon flour, 1 tablespoon butter, to 1 cup milk). Sprinkle bread crumbs on top and bake in a moderate oven until brown and potatoes are well done. Serve hot. Just enough ham can be used to give the desired flavor, which has the advantage of making a little ham go a long way. For pieces this can be baked at home in a heavy tin dish with a cover and reheated over hot water on a campfire.

Taxes for the relief of the poor have been levied in England since 1573.

Just as it has been for ages, work will continue to be the best exercise in 1930.

Elevator Operators Must Accept Grain
Storage Reservation Not Permitted Under Clause In New Act

Elevator operators are compelled to take in grain submitted to them by farmers when they have accommodation for it under a clause in the new Grain Act, approved by the committee on agriculture and colonies. They are not to be permitted to reserve storage space for customers in advance; but must take in grain as it is offered as long as they have room.

Discussion of this provision raised the question of the discretion of the elevator operator to refuse damp or smutty grain. Some members of the committee thought they should not be required to accept grain unsuitable for storage, thereby tying up storage facilities and preventing the movement of good grain. This question was left to stand over until a section covering it could be prepared and submitted to the committee.

London's Busiest Woman
Known as London's hardest-working woman, Mrs. Alice Tabrahams, a widow, has just announced that she will retire, after 25 years of public life. In the morning she works as scrubwoman in the offices of the local Labor Party; in the evening she presides over the Edmonton Education Committee or attends the Urban District Council, of which she is a member. In addition she does all her own housework and cares for her children. She says she needs a rest.

Red Rose Orange Pekoe Tea is truly economical. A half pound makes almost as many cups as a full pound of cheap tea costing 50c to 60c.

REARSE TEA "is good tea"

CHAPTER IX.—Continued.

"Not one cent under a dollar seventy-five, Edgar Purdie, and then I'm giving them away. But you needn't feel at all obliged to take them. That Darling girl will meet the city and knows a bargain when likely snap 'em up. She comes from she sees one. Maybe you'd better be getting on. It's quite a ride to South Wickfield, and you've got to go back home for whatever it is you're going to."

"Whoever said I was going to South Wickfield?" burst from the embarrassed deacon. He was almost as red as his new tie. "Look here, Grandma Davis, don't you put those heads away. This is a sort of an emergency. Will you take one fifty just for the sake of auld lang syne?"

"Well," sighed Grandma, "seeing that you're an old friend, Edgar, and, as you said, this is a—particular occasion, I'll let you have 'em. But you'll have to pay me cash. Giving 'em away like this is—"

"Oh, I'll pay cash!" broke in the deacon eagerly. He pulled out a wallet, deposited the amount in Grandma's hand and put the coveted possession into his pocket, buttoning his coat above it for extra safety. "Good-by, Grandma. Seems to me you've drove an awful hard bargain, but there's times when it pays to splurge a little. You sure these heads are stylish!" he added, pausing; and at the old lady's vigorous affirmative he closed the door.

It was as well, perhaps, that he did not stay longer, for no sooner was he safely off than Charman and the doctor burst from their retreat in the next room.

"Your granddaughter seems to be in a state verging on collapse," announced John Carter. "I had hard work to restrain her from spilling that shrewd transaction that you have just terminated so successfully. Believe me, Grandma Davis, you would have shone as a home trader."

The old lady chuckled, and commented, as Charman sank limply into the chair recently occupied by her victim.

"I do know when I've had such a good time. I wish now that I'd asked more, and made him come up on his offer slow and painful. When I remember—"

"But, Grandma," interrupted Charman sternly, though the corners of her mouth twitched upward, "you said you'd ask a dollar, and you said it twice!"

"I said I'd make him pay a dollar," corrected Grandma. "Do you suppose, child, if I'd said a dollar in the first place that he'd have given it? You don't know Edgar Purdie like I do. That's why I asked for cash. If Laura refuses him this afternoon we'd have had those heads back on our hands come night, or my name's not Davis. You can't tell me any—"

"I feel that Aladdin himself must be occupying the room where Grandma once kept her 'hired help,'" she remarked whimsically. "All you do is to drop a letter in the Wickfield post office, and lo! rare tapestries and antique brags descend upon us! Have your wishes always been granted with so little effort?"

To her surprise the doctor took her question seriously. He was looking down at the rug, and when he raised his eyes she saw that her careless words had struck some chord that hurt him.

thing about Ed. Purdie, I went to school with him."

"That shall you do with your ill-gotten gains?" queried the doctor, his eyes twinkling.

Grandma looked thoughtfully from the window as she replied: "I suppose I ought to put it in the foreign mission box; but I guess it'll do full as good helping to pay the milk man. Here, Charman, you better take it. It's not every day that we make a dollar and a half so easily."

"We might spend it on a wedding gift for the deacon!" suggested Charman, as she arose and took the profits of the nefarious transaction from Grandma's hand.

"Indeed, we shan't!" snapped the old lady quickly. "I gave him a present when he married his first wife, Emma Dodd, as good a woman as ever drew breath of life. It was a silver sugar spoon, and came from Portland. Emma was real pleased with it; but six months later Edgar made her shine it up and give it to his second cousin, Etta Stone, who was getting married over at Templeton. Look here, Boker, was it the wedding and saw it with her own eyes. It was the last wedding present I ever gave to Edgar Purdie, though dear knows I had chances enough as the years passed. Well! Well! We little thought when you asked Jim Bennett to get those beads, Charman, what a good investment we were making!"

"A marvelous investment, consider the fact that Jim paid for the beads himself!" laughed Charman. "I'm going to ride with this evening. Grandma, and shall entertain him with an account of your trip into high finance."

"You better make him promise not to tell," warned the old lady. "If Sarah Bennett got hold of it, the whole thing would be blown back to the wind, and you'd be damaged—that is, if he could get Gam Garfield to take the case!"

"Here comes Edward Howe," she added, with a glance from the window. "He's stopped, and is staring at your new office, sonny. You might run out and see if he wants you to help cut off a leg or something. And see here! You ask him to step in a minute if he's got time. I want to tell him how I got the better of Edgar Purdie!"

CHAPTER X.

Two weeks had passed, busy weeks for Charman, and not devoid of interest. With housewifely instinct she had revelled in putting the finishing touches to the young doctor's office.

He heartily approved of the Java cabinet for the window, and a letter to his sister in Boston had been fruitful of results in the shape of a rug that brought an exclamation of rapture from the girl when she first saw it.

"Are you a millionaire?" she gasped when she could find her voice.

He laughed. "Far from it! But neither am I the world's worst spendthrift, as you might think. This happens to be one of the treasures that fell to my lot when my mother died, and the old home was broken up. It's a Bokhara, and blends with those hangings as if it were made for them. Doesn't it? And behold, fair lady, my sister's donation to my new quarters! Aren't they stunning?"

He held aloft a pair of beautiful brass candlesticks, while Charman exclaimed again. They were in the office, the door wide open to let in the summer sunshine which fell across the shining brass as the girl reached for the treasures and set them on either end of the old mantel.

"I feel that Aladdin himself must be occupying the room where Grandma once kept her 'hired help,'" she remarked whimsically. "All you do is to drop a letter in the Wickfield post office, and lo! rare tapestries and antique brags descend upon us! Have your wishes always been granted with so little effort?"

To her surprise the doctor took her question seriously. He was looking down at the rug, and when he raised his eyes she saw that her careless words had struck some chord that hurt him.

"Up to a certain age, I suppose they were," he replied thoughtfully, "and yet, the possession of this rug, for instance, is not without a twinge of heartache. It means—my having it at all—that I no longer have my parents—that never again shall I see it in its accustomed place in the big living room at home! It brings up memories that hurt, you see, even though I love them."

"But it is wonderful to have those memories," she said, laying an impulsive hand on his.

He squeezed her hand, and responded cheerfully: "Of course it is! But the first glimpse of that old rug brought everything back, and gave me a silly lump in the throat for just a minute. Really, it looks curious, doesn't it? And it was like this to send the candlesticks. Does the place suit you, Mistress Charman?"

"Isn't it more to the point to ask if it suits you?" laughed the girl as she wiped some dust from the old mantel.

"You know without the asking, it's perfect, and, thanks to your feminine touch, even the waiting room looks livable."

"Those thanks are really due to the wicker chairs you sent for," she corrected. "Yes, I'm satisfied. It looks—Why, here's the doctor!" she broke off suddenly. "Come in, Doctor Howe, and pass judgment on the finished product of our labor."

The old man stepped inside, looking about with a shrewd, appraising eye.

"Not much like my first office," he commented. "It was a room over the old drug store, but as blazes in summer, and proportionately cold when the snow fell. You're a lucky man, John Carter, with a place like this, and Charman Davis to look after you!"

"I realize that," responded the young M.D., with a glance at Charman that brought new color to her cheeks. "At least, I shall have a pleasant place to cool my heels in while waiting for the trusting public to employ me. Do you want my company this morning, sir?"

"That's why I stopped. I need your young enthusiasm to throw light on a case that's been bothering me for weeks. Want to go together, Charman? It's a beautiful morning for a ride."

The girl looked longingly through the open doorway, but answered: "I couldn't, really. I've a thousand and one things to do this morning. What time shall you be back? If a patient appears in your absence, Doctor Carter, I'll keep him here if I have to sit on him!"

"We'll be back at noontime," chuckled the old doctor; and as they started John Carter turned to wave farewell to the girl who stood in the doorway of his new office.

Charman waited there until the shabby car vanished down the clouded street, then turned back to the room behind her, looking down at the Oriental rug with eyes that drank thirstily of its beauty.

(To Be Continued)

Strangled With Asthma is the only expression that seems to convey what is endured from an attack of this trouble. The relief from Dr. J. D. Kollogg's Asthma Remedy is beyond measure. Where all was suffering these comes comfort and rest. Breathing becomes normal and the bronchial tubes completely cleared. This unequalled remedy is worth many times its price to all who use it.

New Land Map

The Department of the Interior has issued a new edition of a land map which shows at a glance the number of quarter sections of Crown land still available in each township. The map also indicates Dominion Land Offices, existing railway facilities in each district and provides the customary information regarding cities, towns and villages.

Hibernation is as common among spiders as among bears.

YOUNG WIFE STRENGTHENED

After Taking Lydia E. Pinkham's Vegetable Compound

Ranfort, Ontario.—"When I first took Lydia E. Pinkham's Vegetable Compound I had been married about a year and my strength was leaving me on account of my condition. I was only 19 and it was my first child. My mother told me I needed something to steady my nerves and a girl friend told me to take the Vegetable Compound. I am so thankful I did because it strengthened my whole system and now I feel perfectly well and have a sweet little baby boy."—Mrs. J. D. STANLEY, Ranfort, Ontario.

Gardening For the Blind

The British Guild of Blind Gardeners urges gardening instruction for all sightless children. Blind gardeners can prune fruit trees, sow seeds and thin out vegetables.

The Manitoba hydro electric power development program for 1930 calls for an expenditure of \$2,000,000 on extending transmission lines into rural areas.

Douglas' Egyptian Liniment is without a rival. Stops bleeding instantly. Cauterizes wounds and prevents blood poisoning.

Mrs. Williams—"Oh, Jane, however did you go and break the vase?"

John—"I am so sorry, ma'am. I was accidentally dusting it."

Your Skin In SPRING Needs ZAM-BI

Quickly soothes irritation & clears away pimples, blemishes, freckles, etc. Keeps skin soft, smooth, and clear.

Paintings Are Carefully Kept

Canadian War Memorial Pictures In Fire Proof Room at Ottawa

When construction of a new national gallery building is undertaken, provision will be made for the proper housing and display of the Canadian war memorial pictures.

The pictures, said Mr. Elliott's answer, are completely protected from any damage due to dampness or any other unfavorable atmospheric conditions. They are not, at present on view, but can be examined by special arrangement.

The pictures referred to have an estimated value of over \$100,000. They are the property of the Canadian people. They are paintings, etchings and pastels of every phase of Canadian war effort, undertaken by many of the most outstanding artists and writers of the past.

The pictures referred to have an estimated value of over \$100,000. They are the property of the Canadian people. They are paintings, etchings and pastels of every phase of Canadian war effort, undertaken by many of the most outstanding artists and writers of the past.

Future of Television

Great Possibilities Are Foreseen By Earl Of Clarendon

The Earl of Clarendon, former chairman of the British Broadcasting Corporation, foresees "staggering possibilities" for television.

He says: "When it is possible to present a stage play or a national event such as the Derby on a small screen which a family or perhaps a small audience in a hall can see, then television will go like wildfire."

While we have some distance to travel before that goal can be achieved enough progress has been made to suggest that it may be attained within the next few years.

Little Helps For This Week

"God is our refuge and strength, a very present help in trouble." — Psalm xvi. 1.

Console thyself with His word of grace. And cease thy wall of woe. For His mercy never ceases to bathe. And His love no bounds can know. Lean close unto Him in faith and hope.

How many like thee have found in Him a shelter and home of peace. By His mercy compassed round! — John Greenleaf Whittier.

Where but in Thee have we a covert from storm, or shadow from the heat of life? In our manifold temptations Thou alone knowest, and art ever nigh; in sorrow Thy pity revives the fainting soul; in prosperity the guiding soul; in our property and ease it is Thy Spirit only that can wean us from pride and keep us low.—James Mainwaring.

Minaud's Will Stop That Toothache.

Will Be Paying Guest

Grant Zeppelin To Pay For Use Of Lakehurst Naval Base

The Grant Zeppelin hereafter will be a paying guest when it visits the United States. During its forthcoming stay the German ship will be quartered at a rate of \$2,000 a day in the big "hotel" at Lakehurst, N.J., naval base.

Other items on the bill include: \$3,000 for preparing the base, \$1,000 a day for keeping the base in readiness, dating from the hour of the expected arrival, and \$50,000 insurance. A deposit of \$15,000 covering all charges, will be exacted. It will be the first time the government has ever levied a bill against any foreign aircraft for accommodation at a U.S. naval base.

Judges—"You admit smashing the chair on your husband's head?"

Accused—"It was not my intention!"

J.—"You did not want to strike your husband?"

A.—"Yes—but I did not want to break the chair!"

Treat Colds 2 Ways With One Treatment

RUBBED ON throat and chest, Vicks does two things at once:

- (1) It is vaporized by the body heat and inhaled direct to the inflamed air passages, and
- (2) It stimulates the skin like an old-fashioned poultice and "draws out" the soreness.

Two-Way Television

Speakers See Each Other Through Device On Telephone

The curtain velling the telephone of the future was jerked aside in the first practical demonstration of a two-way television by the American Telephone and Telegraph Company.

Users of the device, described as the "Inconophone," looked each other directly in the eye as they conversed, two and one-half miles apart.

It was a demonstration of the progress in approaching the day when it is hoped to be able to see the person at the other end of the telephone lines.

Is Your Child Eligible for This Free Camera and Roll of Film?

Act Promptly!

There is no time to be lost. We have only a limited number of these gift cameras. If your girl or boy is eligible, come in at once to get the camera and film.

HOW OLD is your youngster? Has he become twelve years of age this year, or will he before 1931? Any boy or girl whose twelfth birthday falls in any part of 1930 is eligible, *right now*, for a FREE camera and roll of Kodak Film—the gift of Canadian Kodak Co., Limited, to commemorate the Fiftieth Anniversary of Kodak.

Fifty thousand of these cameras and rolls of film are to be distributed in this country during the month of May, but *only as long as the supply holds out*. Our stock of Anniversary Cameras is very limited, so if your youngster is eligible bring him or her in at once to avoid disappointment.

There are no additional conditions to meet. No red tape. No delays. The only stipulation is that each child be accompanied by a parent or guardian. And our only advice is to act promptly, for these gift cameras will not last long.
